

Nero 9

Simply Create, Rip, Burn, Copy, Share, Backup, Play and Enjoy

Nero 9 is the next generation of the world's most trusted integrated digital media and home entertainment software suite. It features new cutting-edge functionality that makes enjoying digital media content simple.

This easy-to-use yet powerful multimedia suite, gives you the freedom to create, rip, copy, burn, edit, share, and upload online. Whatever you want – music, video, photo, and data – enjoy and share with family and friends anytime, anywhere.

With easy-to-use Nero StartSmart command centre, your digital life has never been more flexible, feasible, and fun.

Create & Edit

Video

Whether you're recording football games, concerts, or family reunions, get professional results in an easy-to-use video creation and editing tool. Use the Movie Wizard template library and create entertaining movies for every occasion (birthdays, weddings, vacations). Watch seamless movies or music videos, without commercials or other scenes interrupting, by using Ad Spotter to automatically cut them out. Become the movie director you were meant to be!

Music

Dust off your old CDs and LPs and digitally archive them forever. Easily manage and play your favourite music titles with new music recognition service delivers accurate song and artist information, and album art (Powered by Gracenote®). Browse media for playback, create playlists of your favourite audio tracks, shuffle and categorize tracks for easy reference. Simply create MP3 archives of your favourite Music videos with Music Grabber.

Photo

Make all your digital photos come to life. Share the stories of your life's most memorable moments with professional photo-editing tools to correct red-eyes, crop, rotate, adjust, and enhance photo quality. Create entertaining photo slideshows with special effects, transitions, and music; burn it on DVD with great 3D menus and share with family and friends.

Convert & Share

High-Definition

Make use of the latest AVCHD or HDV camcorders, edit your project in HD quality including Nero SmartEncoding for AVCHD and create an AVCHD disc on a regular DVD medium (red laser) or a BD-AV disc (blue laser).

Convert & enjoy multimedia files on iPod®, PSP®

Convert your music, videos, and photos to DVD, CD, or your portable devices and enjoy them on the go. Convert your old CDs, LPs, and tapes to MP3s and save them forever – Gracenote® MusicID® will give you the track information, titles, and great album art to complete your collection.

Internet

Upload your coolest photos and videos to share with My Nero and other online communities. Note Sharing content on My Nero, YouTube™, MySpace™, and other online communities is subject to availability

Home Entertainment

Media Center

NEW amazing TV experience from the comfort of your sofa gives you state-of-the-art TV technology, even for HDTV and DVB Radio. Integrates into Windows Vista® Media Centre and Windows® XP Media Centre Edition.*

High-Definition Television

Record, manage, playback, and enjoy your favourite TV shows – even for HDTV. Watch High-Definition TV and use the P-i-P (“picture-in-picture”) mode for watching 2 channels at the same time.

Multimedia Playback

The popular DVD and multimedia player now features support for the latest digital audio and video file formats, a new playback design with convenient playlist handling, shuffle playback, as well as docking and stand-by modes for both the browser window and playlists. The new display, with Gracenote® music services, shows clear and accurate track and artist information, as well as album art.

*Please note: DVB-S/S2 currently works only on Windows Vista® and Windows XP® MCE 2005

Rip & Burn

Best in the World!

Fast and easy ripping, burning and copying of CDs, DVDs and Blu-ray Discs* directly through Nero StartSmart. With DVD-R Dual Layer and DVD+R Double Layer support, you'll get more data on a disc than ever before.

DiscCopy Gadget
